

Protec Fuel, Patriot Capital Corporation Join Forces To Offer Zero-Percent Financing Program on Ethanol-Ready Fuel Dispensing Equipment

Partnership creates a hassle-free path to obtaining alternative fuel upgrades

ATLANTA, GA – August 13, 2015 – Fuel marketers seeking a competitive edge by offering alternative fuel options, can now quickly and affordably add ethanol-enhanced fuels to their dispensing lineup.

Through an expansion of an existing partnership, [Patriot Capital Corporation](#), a leader in innovative equipment financing solutions, is offering a zero-percent financing program to dealers who enlist [Protec Fuel](#) to create or expand their capabilities in offering E15, E85 and higher ethanol fuel blends.

The rate – available on terms of up to 60 months – is available to qualified retailers who install dedicated dispensing equipment and sign a supply agreement with Protec, a leader in turnkey ethanol solutions. Protec works closely with its C-store and fuel-marketing clients to manage and implement a complete alternative fuel solution, with services that include:

- Equipment expertise in E15, mid-level blends and E85 systems, dispensers and stations.
- Project-management or co-management of infrastructure installations, storage tank conversions or installs
- Assistance with permit applications and filings.
- Station site promotion, target marketing, and advertisement.

“Protec has developed a solid reputation for providing C-store operators with an expanded range of fuel options, ranging from E15 to E85,” said [Chris Santy](#), managing director, Patriot Capital Corporation. “We are excited about expanding our partnership with Protec Fuel. This partnership would include financing options for dispensers, price signs, underground storage tanks and other equipment work that will support the expansion of alternative fuels. “

“Patriot Capital Corporation is well regarded as the industry’s leader in providing financing to the fueling industry,” said [Todd Garner](#), managing member and CEO of Protec Fuel. “We are excited to expand upon the expertise that Patriot has in providing hassle free financing to our customers. This will enable Protec to achieve our mission of broadening the footprint of ethanol availability for consumers and commercial fleets.”
